

How can Lifestyle Entrepreneur Coaching™ benefit you?

Achieve your goals!

Lifestyle Entrepreneur Coaching™ is a professional, supportive relationship that helps you become motivated and focused while achieving positive changes in your life. As a result, you'll take action, set goals, and make better decisions about your personal and career direction. I draw on the business lessons that I have learned to help you follow your entrepreneurial calling towards a life of independence and self-reliability. If you are ready to begin the process of starting your own business or an established business owner now; I am here offering one-on-one advice, techniques, tools, and support during research, development and operation.

Who Uses a Coach?

- Are you overwhelmed and stressed out?
- Looking for ways to strengthen your marketing strategy?
- Were you under the impression that having your own company would lead to a better lifestyle?
- Working longer hours for yourself but finding less enjoyment?
- Is working for yourself starting to feel like just a job?
- Are you interested in learning techniques to help you work smarter instead of harder?
- Are you transitioning from corporate America to becoming a business owner?
- Are you presently unemployed?

Let's discuss all the possibilities.

Coaching Statement

As your lifestyle entrepreneur coach, I will encourage you to think 'outside of the box.' You will explore all of your options to reach your passionate dreams. I will support you in your decisions, listen to your concerns, provide clarity, and facilitate your move forward to reach your goals.

The Coaching Process

The process will begin with a one-on-one meeting in person, by phone or over Internet chat for 60 minutes. You will have the opportunity to fully express your goals and what you would like to achieve throughout your coaching experience. For each session, the focus will be on your priorities of entrepreneurship. I will also answer any questions you have about the entire process. Your initial consultation is 'free'.
